**Description:**

BW Sole is a 16-storey residential building occupying the western perimeter of the continuous green zone of the Sava Park, along the Woodrow Wilson Boulevard. The building's key design feature includes a facade articulation that breaks down the massing into a series of blocks in various finishing materials, forming the perception of a city street. The complex provides exceptional connectivity to and from the city, enhanced natural light and superb views of the landscaped inner courtyard and Sava Park.

Located in the third row of buildings from the Sava riverside, with the advantage of directly overlooking the majestically landscaped Sava Park, BW Sole offers a unique melange of exclusive lifestyle advantages for residents of all ages. For families with children, the spacious landscaped inner courtyard with adjacent Sava Park, as well as nearby kindergarten and school facilities will be of prime importance. Singles and young couples will be drawn to the area's dynamic character and proximity to Galerija Belgrade with its unrivalled choice of restaurants, cafés and retail outlets, while excellent lifestyle advantages, from walking or cycling along the Sava Promenada, to a rich cultural repertoire are highly beneficial for everyone
