**Description:**

Residential-business complex in the central zone of the capital, two kilometers from Terazije and the Republic Square. A real green residential oasis with 30,000 m<sup>2</sup>, where the accent will be on the highest quality construction and at prices that are more than competitive for the capital, and we can freely say the most favorable for this part of the city.

The whole project is intended to enable future tenants to have everything they need in their vicinity. That's why the Green Residence facility is already planning a sports complex with a fitness center, as well as a spa center with a swimming pool.

A modern project is designed to let tenants enjoy everything at hand, as well as the mega market and the technical goods market.
