Description:

The object is a residential building with 4 aboveground and 2 underground floors with a garage, storage and technical facilities. A quiet elevator connects all underground and above-ground floors of the building. The building has a total of six apartments, one or two apartments per floor. Unique, modern architectural style, with wide access through the courtyard, designed by noble vegetation. The building is located in the center of Belgrade, near the Kalenic Market and the Hram Sveti Sava, in a quiet area, with excellent connections to other parts of the city. There is a primary school nearby, an old building, a monument of architecture with a spacious yard in greenery.
