| Parking space: | Underground | Commer. premises: | Yes |
| Conditioning: | Multi-split system | Publ. (upd.): | 17.02.2025 |

Description:

BW Rima is a new building on the second line from the Sava River, offering families an intimate living atmosphere in the very heart of the capital, with exceptional connectivity to the rest of the city. Thanks to the building's unique "zigzag" architecture, almost 80% of the apartments have views of two sides of the world, and as many as 50% of the one-bedroom apartments have such a two-sided orientation of the living rooms.

Infrastructure

BW Rima is a unique environment for a healthier and more active lifestyle. A spacious common courtyard, which will be separated from the street by a hedge, forms the green heart of the complex, which will include a playground for children, a bocce court for adults, as well as a relaxation area for residents. The magnificent Sava Park, just one block from the building, offers a range of sports and recreational facilities for people of all ages and interests, while the nearby 1.8-kilometer-long Sava Promenade provides opportunities for jogging, cycling or a leisurely walk along the river. Not to forget the state-of-the-art sports center, which will give residents the opportunity to enjoy sports activities throughout the year.
