Infrastructure

New Belgrade has long been the residential and business center of Belgrade. Omladinskih Brigada Street, next to which the Soul 64 complex is located, is one of the lifelines of the entire municipality and makes everything important always close at hand: • just a 7-minute walk to the banks of the Sava, • to the shopping center in 4 minutes, • the city center at a 10-minute drive, the airport at 15, • even two business centers 2 and 3 minutes away, • three elementary schools and two health institutions in the immediate vicinity.
