Description:

Each of us comes into the world to leave our unique mark — in time, in space, in the people around us. Signature.Zemun is a home where that mark becomes tangible: in meaning, in form, in detail, and in the spirit of every space. Just a few steps away stands one of Zemun's symbols — the Gardoš Tower. Built in 1896 on the hill of the same name, it rises on the foundations of the former Zemun fortress Taurunum from the 9th century.
