Description:

The modern residential and business complex in Bulevar Kralja Aleksandra represents a harmonious whole that combines quality housing, business premises and facilities adapted to the modern way of life. The complex consists of five lamellas and is a closed type of settlement, which provides residents with additional privacy, security and a peaceful environment. Special emphasis was placed on the quality of construction, energy efficiency and comfort of living, which is why the building will have a B energy passport.

Infrastructure

The location on Bulevar kralja Aleksandra offers a perfect combination of comfortable living and practical connectivity to the city. In the immediate vicinity, there are shops, schools, green areas, as well as two shopping centers BEO and Aviv — making the neighborhood lively, yet pleasant for everyday life. The proximity to the highway and main roads allows for quick and easy access to the city center, while the residential complex provides peace and security for the whole family — a perfect place for both living and investment.

Elementary School:	500 m	Within the complex:	1 m
