Description:

Soka Hill is a contemporary residential project developed with a focus on functionality, construction quality, and long term value. The project brings together carefully planned architecture, efficient apartment layouts, and reliable technical standards, tailored to a modern urban lifestyle. The location offers good connectivity to key parts of the city, while the concept of the project ensures an optimal balance between privacy, comfort, and everyday practicality. Soka Hill is intended for buyers seeking a clearly defined, reliable, and well executed living space.

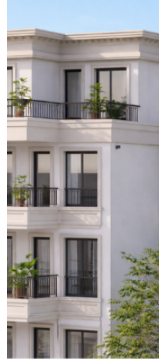

Infrastructure

Soka Hill is located at 106a Braće Jerković Street, in Voždovac, near the terminal stop of bus line 26. The location is well connected to all key parts of the city, with easy access to major roads and direct connection to the E75 highway. In the immediate surroundings, there are schools and kindergartens, shopping and service centers, including Stadion Shopping Center, as well as shops, healthcare facilities, and all amenities necessary for everyday life. The property's microlocation enables quick and efficient access to all parts of the city.

Primary school:	2500 m	Kindergarten:	1500 m
Market:	2500 m	Hospital:	2500 m
