Description:

Contemporary architecture, carefully selected materials and a high standard of finish, designed for quality and comfortable living.

Infrastructure

The building on Rade Končara Street is located in one of the quietest parts of Zemun, away from the hustle and bustle of Lower Zemun, yet within a short walk of the riverfront promenade, Gardoš Tower and the historic town center. It is a combination rarely found among properties in Belgrade: the tranquility of upper Zemun with the convenience of being close to the center.
